Mr. R.J.E. (Ric) Williams (B.Sc.; Dip.Env.St.)

Cosmepeutics International's niche in the market is to provide specialised technical, research, development and product advice for ;

OTC Therapeutic Products (including Sunscreen products),
Skin, Hair and Oral Care (Organic, Cosmetic and Toiletry) Ranges,
Household I&I Products, &
Veterinary Products.

Cosmepeutics International provides ;

Technical / Product Development of products for that new marketing idea.
Customer Education / Work force Training / Lecture Programs on your products and how they work,
Product Problem Advice on performance or problem criteria,
Factory & Laboratory Design for standard, specialised, TGA or ISO purpose.
Quality Audits on your production or laboratory system,

This would usually be completed under contract, based on the specific needs of the brief and arranged at competitive costs. Full secrecy agreements can be provided.

The aim is to remain small and, hence, be dedicated to a personalised and direct service to clients, while providing all of the technical advantages for those who are developing new areas, still building their market share or are just entering the market. This will also have the advantage of being able to introduce new technology and products within very short time spans.
